

## Using Teen PSAs – Ideas for Discussion

### PREPARING AND WATCHING THE PSAs:

1. Teacher selects PSAs to be viewed by class from topics provided or shown on TeenPSA.org.
2. Show the brief TGS Teen PSA Student Intro PowerPoint video to provide background and to prepare for voting by topic.
3. Students watch the selected PSAs and vote for their favorite using Student Voting link provided. (Voting helps you see the program impact and helps us keep the program going at no cost to schools.)

### AFTER WATCHING THE PSAs:

4. After watching the PSAs, discuss what PSAs had the most impact:
  - a. Which PSA did you like best? Which will you remember?
  - b. What facts did you find surprising?
  - c. What videos were most powerful?
  - d. Who could you talk to about these issues?
  - e. What ideas did you see that might help us create a better school?
5. Discuss as a class how you can share this information with peers and younger students, the entire student body and the community at large.
